

PRODUCT RANGE SKID STEER LOADERS

A COMPACT APPROACH TO WORKSPACE FREEDOM

Get into tight corners

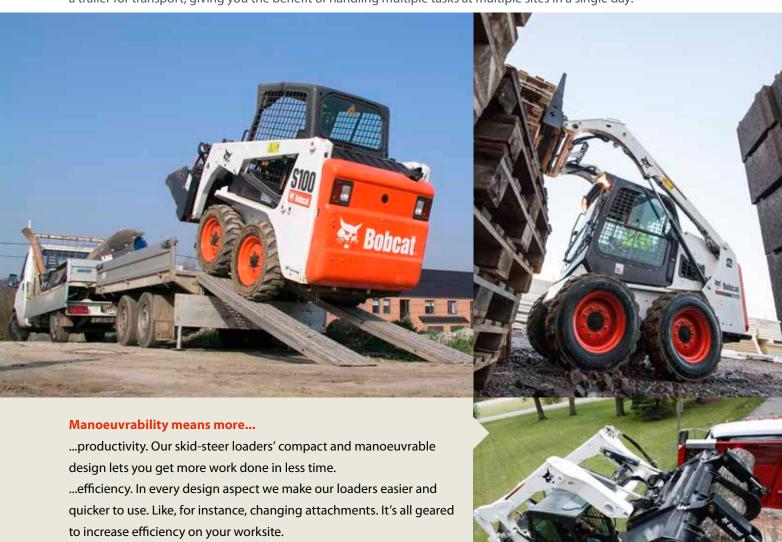

Restricted in your movements? Tight spaces, passageways, construction sites, inside buildings – Bobcat compact skid-steer loaders give you the workspace freedom and power you need, anywhere, anytime!

Steering clear of obstacles

Manoeuvre around obstacles with ease. Our rigid-chassis loaders deliver four-wheel drive power across two independent, variable transmissions. This gives you counter-rotational steering and allows you to turn in a very tight, complete circle.

Less is more

Small size has another great benefit when moving machines between sites. It's quick and easy to get the loaders onto a trailer for transport, giving you the benefit of handling multiple tasks at multiple sites in a single day!

so operators can focus on the work at hand.

...rapid cycle times. Fast raising, dumping and lowering loads times,

MORE MUSCLE ON YOUR BOBCAT!

Stronger than your average loader

Landscaping, construction, agriculture, demolition? Whatever your field of work, let our skid-steer loaders guide you through tricky terrain. Whether in mud or on hard slopes, the combination of power and a long wheelbase gives greater stability and a smoother ride, so you're ready to tackle any task.

Our skid-steer loaders are especially productive within a short to medium working radius – ample coverage for your industrial, agricultural and construction tasks.

Built for durability

Everything about a Bobcat machine radiates quality. Our skid-steer loaders are no exception. They are durable in rough conditions, so you can handle the toughest jobs.

Power to push

To ensure maximum pushing force, our skid-steer loaders are carefully balanced for optimum traction.

The digging capability is great too – especially important if you're working underneath buildings, where machines have to be compact and agile as well as strong.

Easy maintenance, less downtime

Maximizing uptime gives you the edge when it comes to productivity. Routine maintenance makes a big difference, so we make sure you have easy access to the key hydraulic and hydrostatic components.

OPERATE IN YOUR COMFORT ZONE

Perfect comfort for a productive day's work

Bobcat skid-steer loaders provide you with the optimal working environment. Every aspect adds comfort and convenience, so you can keep going for longer, and get more done more quickly.

Larger and more comfortable cab for our new generation loaders

Visibility has been significantly increased in all directions. The rear window is 14% larger and the top window 43% larger.

Equipped for your needs

- Panoramic visibility
- Cab enclosure with optional heating and air conditioning
- Optional keyless instrumentation and Power Bob-Tach™ quick-change system for attachments
- Optional high speed version on most models

Versatility is our middle name

- Sweeping
- Breaking
- Trenching and cutting
- Material handling
- Drilling
- Planing and chipping
- Grading & levelling
- Grinding and much, much more...
